

## Spring Sarasota - Bradenton Plumbing Checklist

### ● 1. Indoor Plumbing

- ☐ Check under sinks for leaks or moisture
- ☐ Test all faucets for proper water pressure
- ☐ Flush toilets and listen for continuous running
- ☐ Look for signs of corrosion around fixtures
- ☐ Drain and flush your water heater
- ☐ Inspect washing machine hoses for cracks or bulges
- ☐ Clean faucet aerators and showerheads
- ☐ Watch for signs of hard water buildup

### ● Outdoor Plumbing & Irrigation

- ☐ Turn on and test the outdoor spigots
- ☐ Check hose bibs for leaks or drips
- ☐ Inspect sprinkler heads for damage or clogs
- ☐ Watch for pooling water or low pressure in irrigation zones
- ☐ Clean gutters and downspouts near exterior piping
- ☐ Check sump pumps or backflow prevention devices if installed

## **Pro Tip: Look for These Red Flags**

- Higher-than-normal water bills
- Water spots on ceilings, floors, or walls
- Low water pressure throughout the home
- Musty or moldy smells near plumbing areas

## **Want Professional Eyes on Everything?**
